HOME PAGE

As per the problem statement, we have divided analysis into two sections: -

1. Impact of different factors in Sales of Amazon:

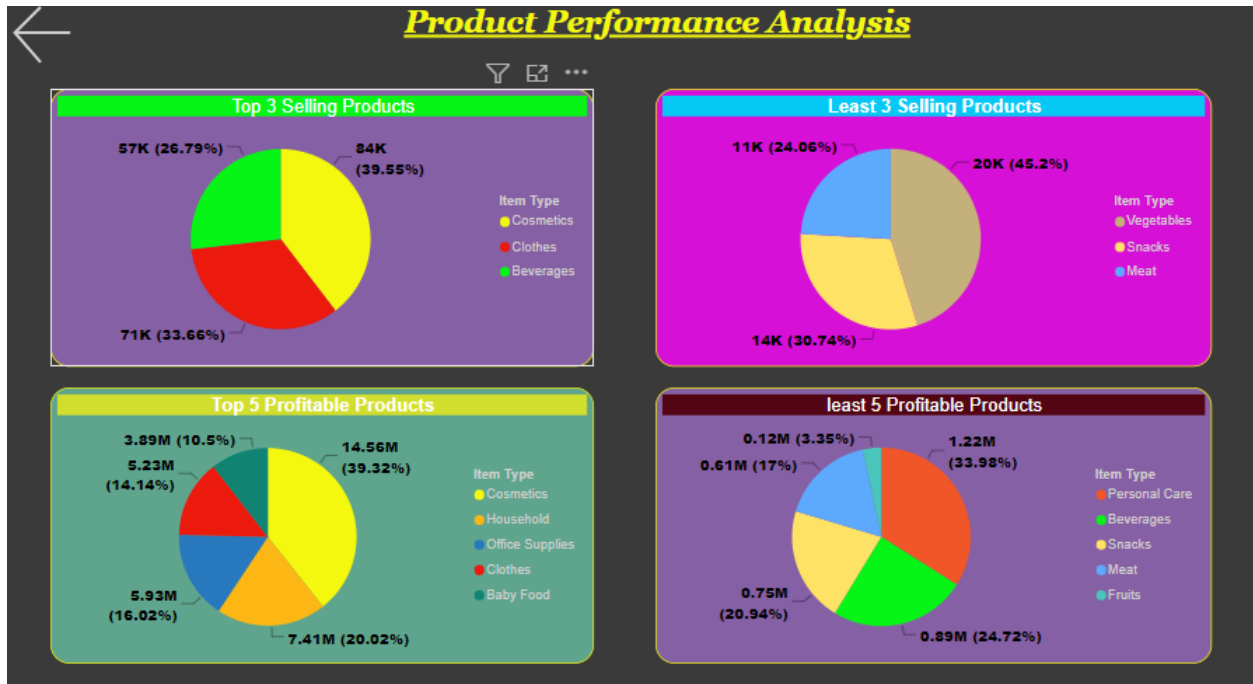

In this section we designed our first dashboard and tried to interpret the followings:

Impact of Region, Itemtype etc. on Profit

- It shows sales trend of month and year.
- It shows the data based on different countries also.

2.PRODUCT PERFORMANCE: -

- Shows the most selling and least selling products
- Shows the most profitable and least profitable products
